PRESIDENTIAL AVIATION ADDS A GULFSTREAM 200 FOR NINE PASSENGERS TO THE COMPANY'S AIRCRAFT MANAGEMENT & CHARTER FLEETS

FORT LAUDERDALE, Fla.—Presidential Aviation, a leading aircraft charter, management, aircraft sales and maintenance company based at the Fort Lauderdale Executive Airport (FXE) in South Florida, recently added a Gulfstream 200 to its managed fleet of aircraft. Presidential Aviation will also offer the aircraft for charter flights. The Gulfstream has a range of 3,130 statute miles. The aircraft will be based at the Miami-Opa Locka Executive Airport (KOPF), strategically located to cater to the South Florida market—making it the perfect aircraft for coast-to-coast flights.

Painted in Matterhorn white with blue and black stripes, the long-range jet offers seating for nine passengers. The aircraft was designed in modern cream leather, with double-club seats and executive dining tables for four forward passengers and a two-person club seating configuration aft. Also aft is a three-person, berth-able divan. This super mid-sized jet can sleep four.

For entertainment, the aircraft features Univision Airshow, dual DVD players, along with forward and aft 14-inch flat panel LCD screens. The aircraft offers four, 110 ac outlets for charging electronics. The Gulfstream 200 houses a forward galley with a sink, microwave, coffee maker, wine rack and multiple storage compartments. The aft cabin houses a full aft lavatory with vanity mirrors and hanging storage for clothing. The aircraft offers guests 125 cubic feet of baggage space for luggage and storage.

The Gulfstream's cockpit avionics package is comprised of a Collins Pro Line 4 five-tube EFIS, with Dual Collins FCC-4005 for auto navigation, and Dual Universal UNS-1C FMC with GPS, and a Universal Aero I SATCOM. For safety, the aircraft is equipped with a Collins TCAS-94 w/change 7 Collision Avoidance System, a Terrain Awareness & Warning System, an Allied Signal Mark V Enhanced Ground Proximity Warning System (EGPWS), a Collins TWR-850 Weather Radar, and Dual Collins TDR-94D Mode S Transponders.

Presidential Aviation, Inc., is an industry-leading private aircraft charter, aircraft management, and aircraft sales & brokerage firm. The company specializes in a wide range of corporate jets for every charter mission type, including light jets, mid-sized jets, large-cabin aircraft, and ultra-long-range jets. For aircraft management customers, the firm offers pilot and flight crew training, crew management and scheduling, aircraft maintenance and record-keeping. The company employs factory-trained maintenance technicians and holds a 14 CFR part 145 certified repair station certificate (9PVR416M), with a limited airframe rating on Gulfstream IV, Dassault Falcon 50, Dassault Falcon 50EX and Dassault Falcon 2000 aircraft. Presidential Aviation, Inc., is a safety-centric operator following strict FAA guidelines and with an unblemished safety record. The company is an ARG/US Gold Rated company, a Wyvern Wingman Operator and a Stage 1 IS-BAO registered company.
